

Are you

INTERVIEW READY?

NOT.

A public interview challenge. One recorded voice, five AI judges from three labs, one signature from us. Nobody has passed yet. We're looking for just one.

AI INTERVIEWS EVERYONE. NOBODY TRUSTS THE *result.*

5,000

AI screening interviews in a single day at
one vendor's largest customers

70%

say AI wasn't clearly disclosed before their
last AI interview

38%

of US candidates quit a process over an AI
interview

Volume drowned the signal. We're building the opposite: one real voice, a disclosed panel, our signature, and a bar nobody has cleared yet.

All five judges score every criterion 4/5 or higher, three runs in a row. The one is announced publicly.
